## EXPERIENCE

### Full Stack Web Development Bootcamp, UNH, Portsmouth, NH

December 2019 - PRESENT

A six month intensive program teaching HTML5, CSS, JavaScript, jQuery, Node.js, MySQL, MongoDB and React.js.

- Spent eight weeks learning frontend technologies such as **HTML5, CSS, jQuery** and frontend **CSS frameworks**.
- Required to build web apps that were **highly responsive** and prioritize **mobile** first.
- Extensive material covering everything from vanilla **Javascript** to modern **ES6** additions, including an intro to **OOP** using ES6 classes and constructors.
- Used **GitHub** extensively to submit and manage each assignment which also allowed us to collaborate effectively during team projects.
- Served as team lead for a **full stack** project where we built an employee feedback app called Drift.
- Successfully launched and connected to an **Amazon EC2 Linux** instance, where I was able to create a database and deploy a simple web app.
- I was able to gain experience in building **relational databases** and used **Sequelize** to manage the **mysql** database.

### Union Coffee Company, Milford, NH — Part Owner

July 2016 - PRESENT

Union is a successful coffee shop and wholesale roasting company. We have five stars on Google with over 350 reviews. Look for us in your local Whole Foods!

### Flight Coffee Company, Dover, NH — Director of Coffee

July 2015 - June 2016

I was given the opportunity to design and open the Flight Coffee Co. cafe in Dover, NH.
